IQUA SNAKE 2

Bluetooth® Headrest Handsfree for car

With as much time as you spend on the road, safety has to be your number one concern. Iqua Snake 2 is a Bluetooth headrest handsfree device developed to promote safer driving with superior audio quality and complete handsfree functionality.

Iqua Snake 2 has a classic design, its stylish silver colored plastic body suits most car interiors. The innovative concept makes installation extremely easy: just attach the device to the headrest of the car seat and adjust it to fit your height with the flexible neck mechanism. There is also a privacy headset for conducting private conversations. The DSP and noise-cancellation technology ensure a high audio quality.

Features

- Power on/off
- Volume control
- Answer/end/reject call
- Last number redial
- Mute
- Voice dial activate (when supported by mobile phone)
- Bluetooth connection active, call status and battery low indicated by LED
- Automatic reconnection to the last user
- Automatic reconnection at power on and disconnect at power off
- DSP (Digital Signal Processor) for echo cancellation and noise reduction
